

double BOOKED

Someone else may enjoy this, I am not a fan and it may be a DNF. Would like to get my time back.

This was a book I didn't connect with or may never recommend. Just meh. I may have struggled to finish the book.

This book is enjoyable, may be a palate cleanser. Good times were had.

The book was enjoyable from the start. Gave me all the feels and would recommend. Surpassed expectations.

The story and characters live rent free in my head long after I finished the book. Everyone needs to read this, would reread. Obsessed and highly recommend, book hangover guaranteed.

Kisses and sweet things. Lots of tension, angst. Fade to black, closed door.

Tasteful touches of intimate details, fairly vanilla. Door is ajar.

Spice in all the right places. Enhances the plot and character arcs. Think Hallmark after dark.

Lots of sexy time. Multiple detailed scenes throughout, a few kinks. Will come with trigger warnings. I clutched my pearls, do not want to read in public. Plot = spice.

Things happened in here that I didn't know existed. Pure smut, heavy and dark themes, loaded with kinks. Comes with trigger and heavy content warnings. Spice > Plot.

Scary and creepy, dipping your toes into the horror realm with tension and may include supernatural content.

Excellent atmosphere and horror elements that made me keep my nightlight on. Unexplained sounds and descriptions that made me jump.

I checked under the bed and may not be able to be in the house alone while reading.

Full body chills. I left my bedroom light on. May be dark psychological and left me questioning my reality. Scenes will be graphic and detailed.

Frightening doesn't just describe it. I felt it. Unsettling and disturbing. Generally includes extreme gore and violence, triggering content. Strong stomach suggested.
